## Santrend 1.0

Year : 2021

UI/UX Design for Mobile App

At the beginning of 2021, to be precise in April, together with 2 of my friends, I made this project which was assigned by our lecturer, where the task that I did was to make the UI/UX Design of the application.

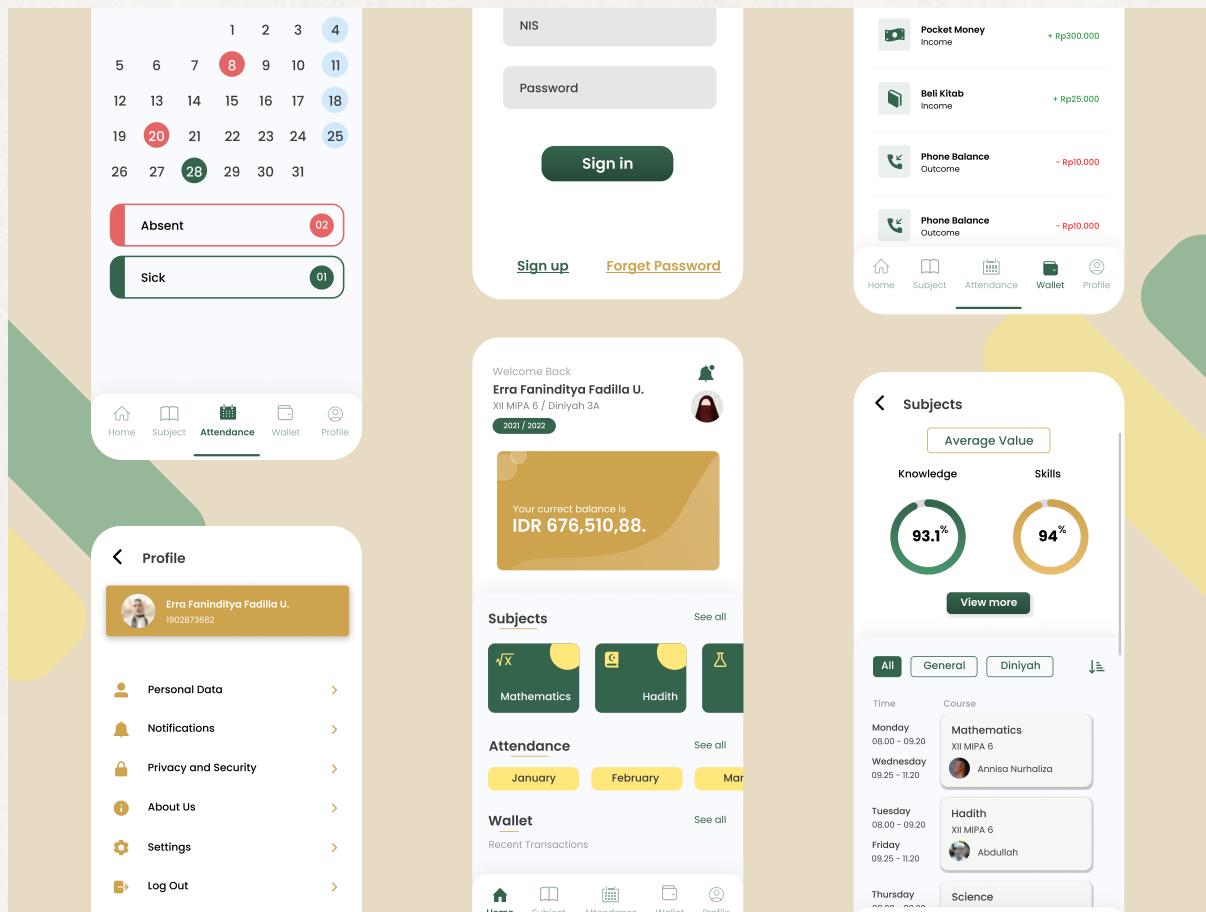

As a result, our lecturers liked the idea we came up with because nowadays technology is rarely used by Islamic boarding schools "Pesantren" due to the prevailing regulations.

Therefore, I am happy to work on this project and be able to make "Pesantren" become a school that starts using technology

## Santrend 2.0

Year : 2022

UI/UX Design for Mobile App

At the beginning of 2022, I redesigned the Santrend app that I made earlier, because I think the previous design was still unsatisfactory. Therefore, I decided to redesign the Santrend app

## Stamina Gym

Year : 2020

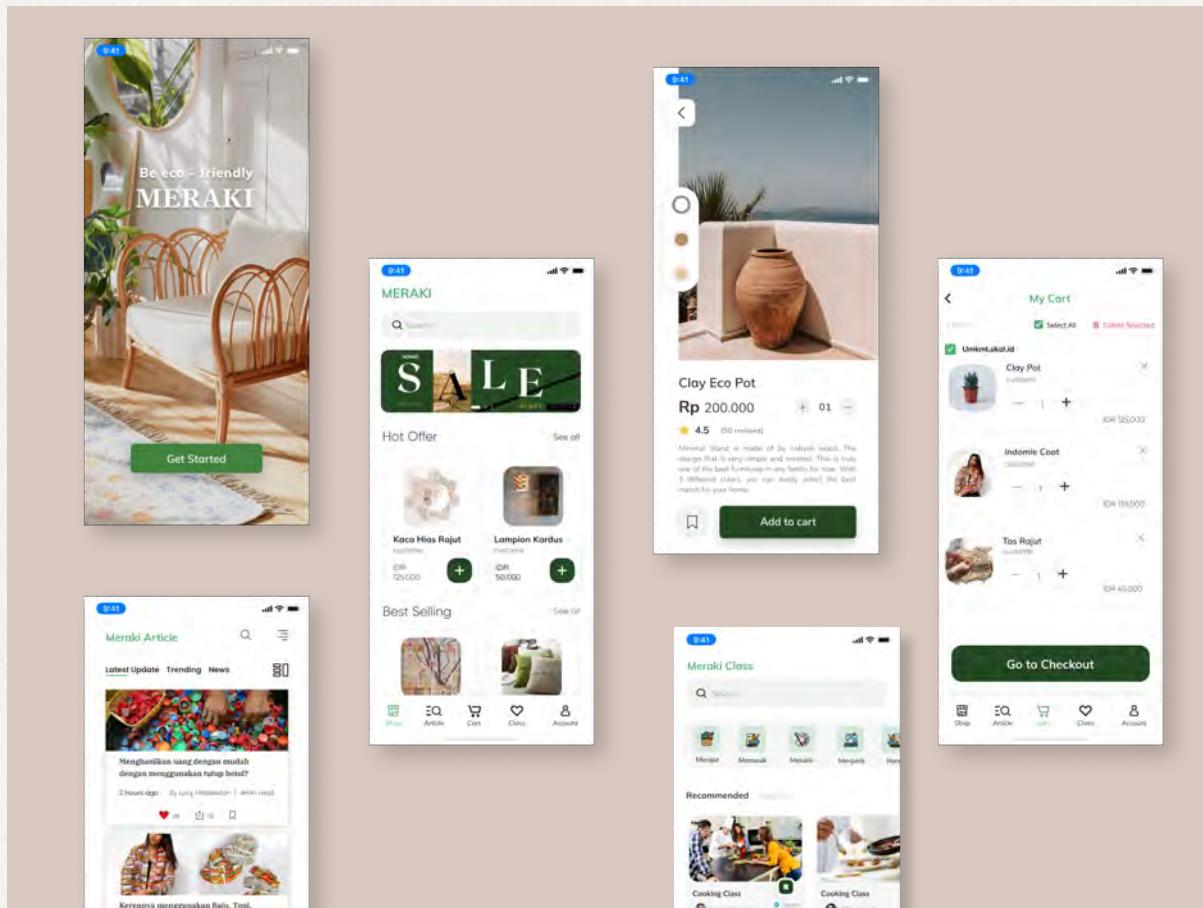

UI/UX Design for Website

In 2020, I was given an assignment by my lecturer to make an application according to the theme discussed by the group. My group decided to create a web-based application with a sports theme. I was assigned to make UI/UX Design of the application, this was my first experience and project before I decided to go into design

## MERAKI

Year : 2021

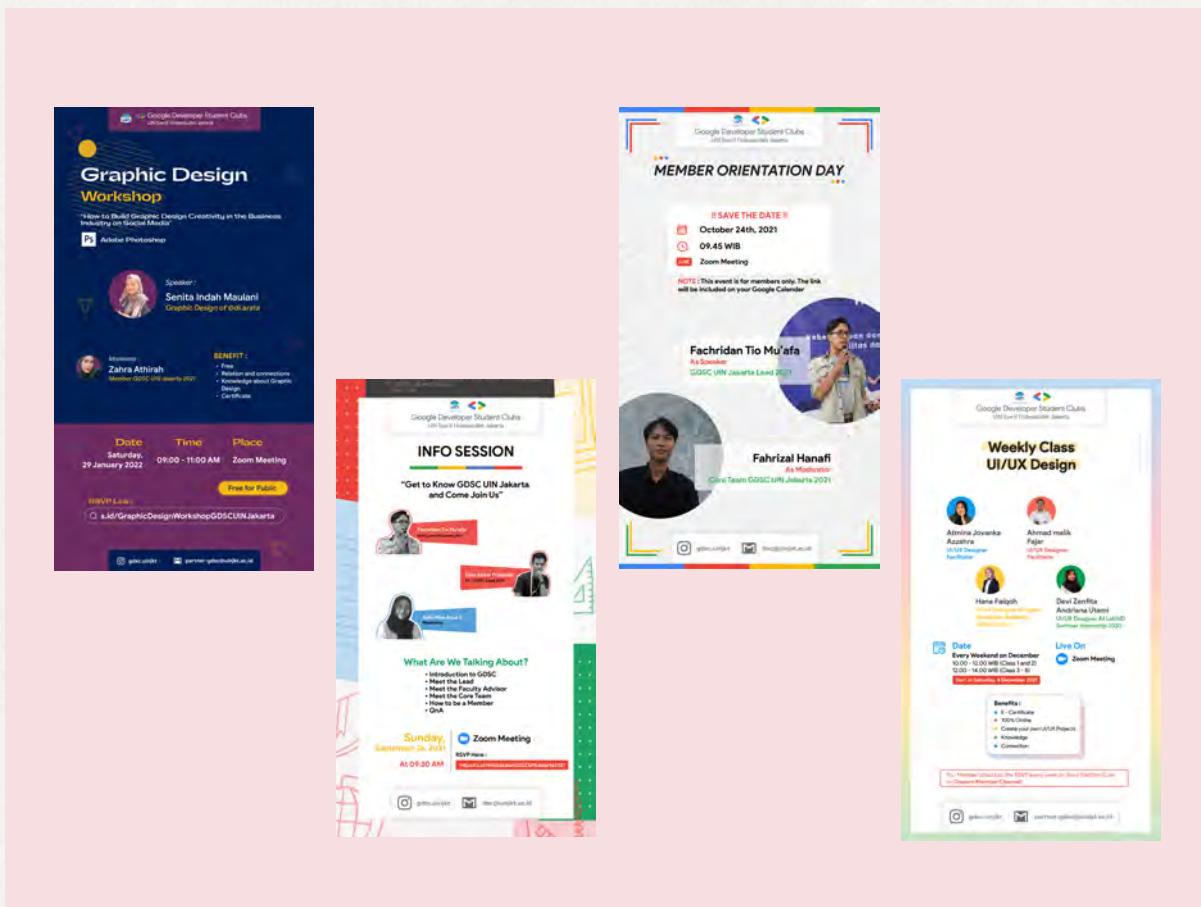

UI/UX Design for Mobile App

MERAKI is an application that aims to accommodate UMKM in Indonesia. By using the MERAKI application, UMKM businesses will find it easier to sell and can also hold classes such as cooking, sewing, knitting and others. I am working on this project together with my friends to take part in a competition. We got 3rd place in the competition

## Poster for Webinar

Year : 2021 - 2022

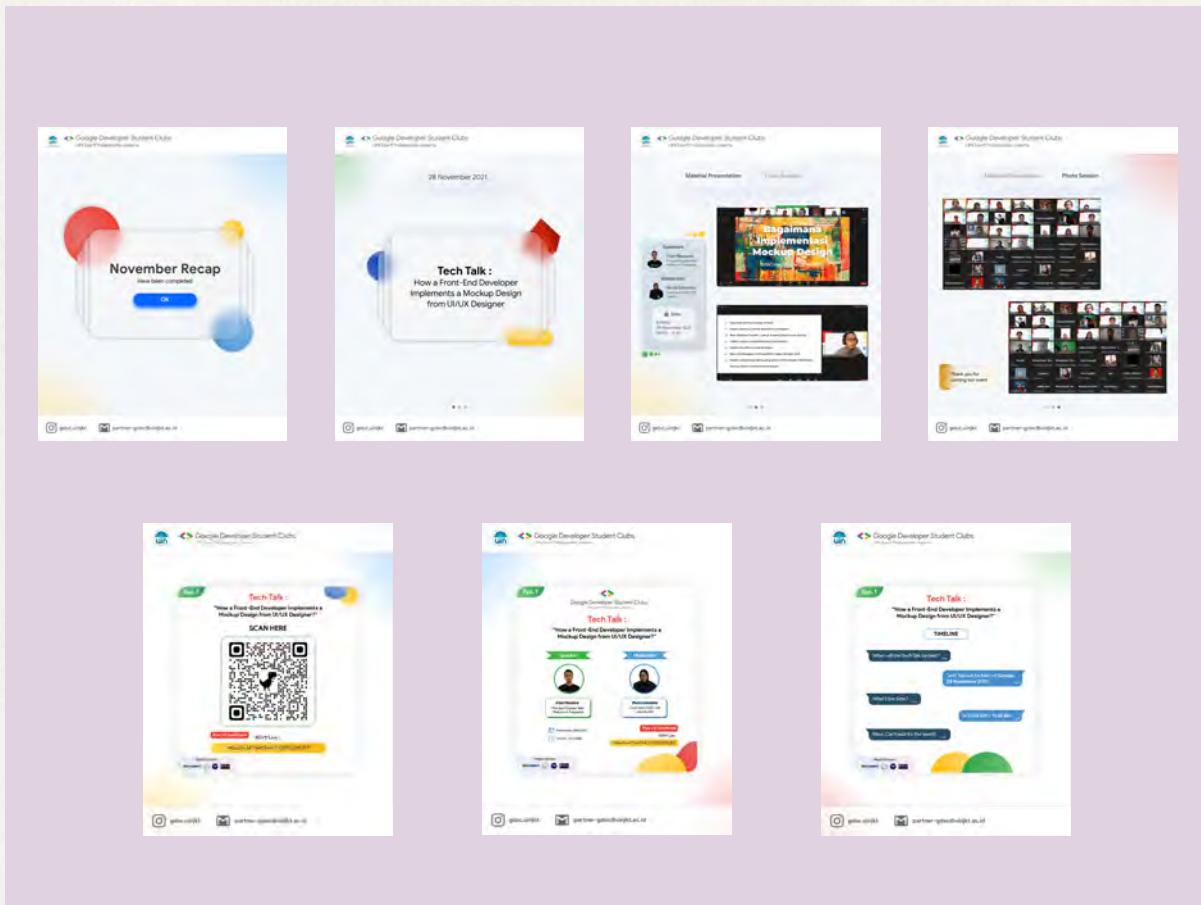

Design Poster

In 2021, I was trusted to be the Head Manager of Media Creative, I started to create content on Instagram story about GDSC UIN Jakarta. I develop creativity through social media Instagram. Some of the posters I made were posters for the webinar from the GDSC UIN Jakarta event.

## Instagram Feeds

Year : 2021

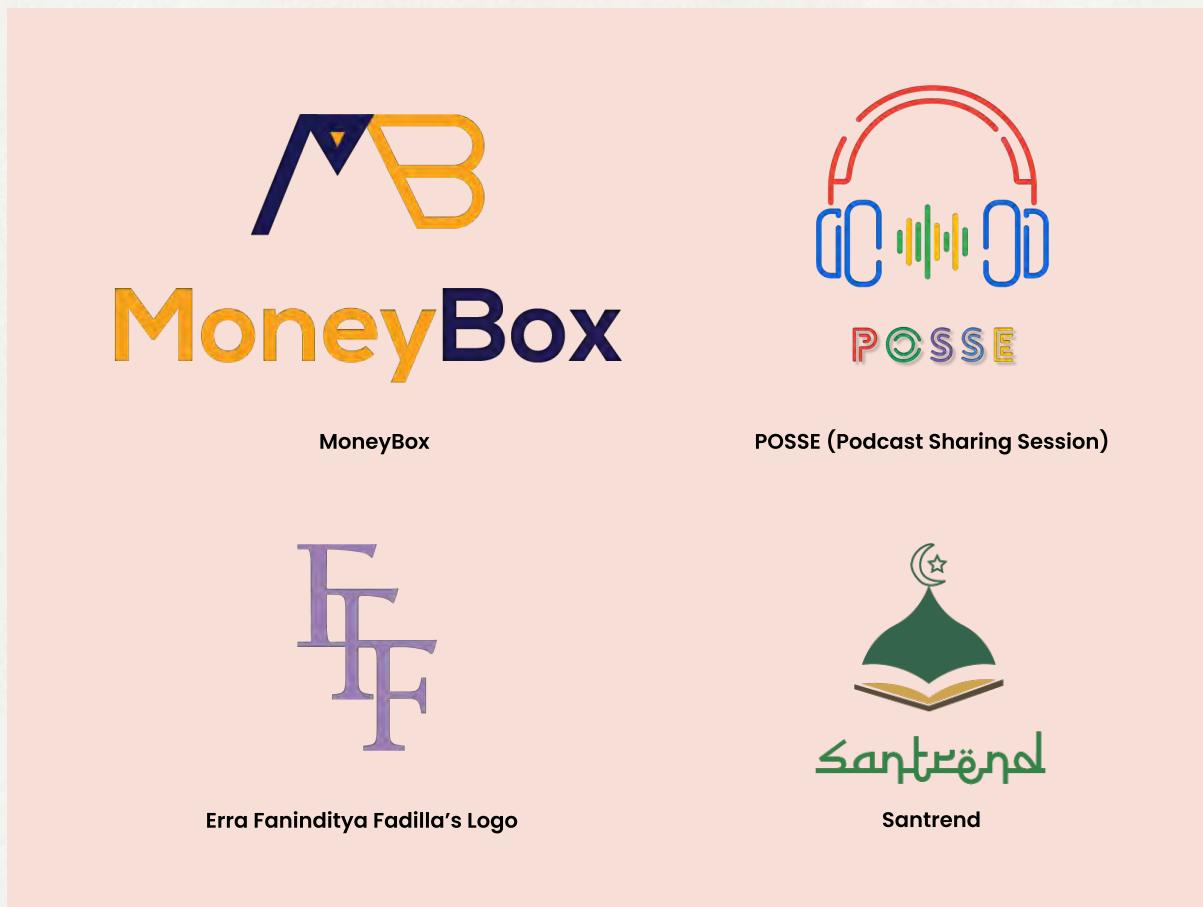

Design for Instagram Feed

In 2021, because I hold an account from GDSC UIN Jakarta Instagram or you can call it admin, I created content on my Instagram feed about GDSC UIN Jakarta. I create content regarding monthly activity recaps on GDSC UIN Jakarta Instagram and also webinar events

## My Logo

Year : 2020 – 2021

Logo made by Erra Faninditya Fadilla U.

In 2020, I created the **MoneyBox logo** because I wanted to take part in the hecketon competition.

Then in 2021, I got the **POSSE logo** because GDSC UIN Jakarta held an event and I made the logo based on the name of the event.

Next I made a logo with the initials of my name, **namely EFF** with the aim of personal branding.

And finally, I made a **Santrend logo** where I made the logo because of an assignment from my lecturer, where the project had to make an application according to group discussions.
